AMET 2027

International Conference On

ADVANCED MATERIALS FOR ENERGY TRANSITION

The conference chairs, co-chairs, and committee are proud to present the International Conference on Advanced Materials for Energy Transition (AMET 2027).

We appreciate your support for this conference and look forward to building meaningful partnerships that advance clean energy innovation and sustainable development.

AMET 2027 is a three-day international conference bringing together researchers, scientists, engineers, industry professionals, policymakers, entrepreneurs, and energy innovators to explore the latest advancements in materials science and their role in accelerating the global energy transition.

The conference will take place from March 22–24, 2027, at The Langham, Melbourne, Australia. The program will cover advanced energy materials and technologies, hydrogen production and storage, sustainable fuels and carbon conversion, and recycling and resource recovery. Through keynote presentations, technical discussions, and networking opportunities, participants will exchange knowledge, address industry challenges, and explore new pathways toward a low-carbon future.

We look forward to your participation and the opportunity to share expertise, inspire innovation, and strengthen collaboration toward a more sustainable energy future.

WHAT THE PROGRAMME COVERS

AMET 2027 will explore scientific advances and emerging solutions supporting the global energy transition. The programme will bring together research across materials science, chemistry, engineering, and sustainable energy technologies, highlighting developments in energy storage, conversion, harvesting, and resource recovery.

FIVE KEY SCIENTIFIC THEMES

01. Advanced Energy Materials and Technologies

Next-generation batteries, advanced electrolytes, electrode materials, electrocatalysts, and electrochemical energy devices.

02. Hydrogen Production, Storage and Utilisation

Green hydrogen, water electrolysis, hydrogen storage materials, fuel cells, and hydrogen-based energy systems.

03. Sustainable Fuels and Carbon Conversion

CO₂ conversion, synthetic fuels, bioenergy, renewable feedstocks, and waste-to-fuel technologies.

04. Emerging Technologies

Thermoelectric materials, triboelectric nanogenerators, piezoelectric energy harvesting, blue energy, and biological energy systems.

05. Recycling, Circular Economy and Resource Recovery

Battery recycling, critical-mineral recovery, waste valorisation, and sustainable management of energy materials.

SPONSORSHIP AND EXHIBITION OPPORTUNITIES

High-level executives from leading companies will convene at the International Conference on Advanced Materials for Energy Transition (AMET 2027) in search of partnerships that can expedite their progress in clean energy and advanced materials development. The event will feature numerous occasions to foster both organized and informal networking and engagement among attendees, sponsors, and speakers. Enhance your corporate visibility and connect with decision-makers interested in groundbreaking approaches. Make the most of the networking prospects available to establish crucial connections for the future, exhibit your solutions, and cultivate fresh business prospects as well as explore potential partnership opportunities.

SHOWCASE BOOTH

Industry prospectors are looking for breakthrough technologies that are ready for licensing, corporate partnering, or investment opportunities. Showcase your innovative solutions and prototypes through demonstration and display with our showcase booth.

MARKETING AND PROMOTIONAL OPPORTUNITIES

AMET 2027 offers various marketing and promotional opportunities for corporate companies. An effective way to raise your company's visibility, effectively get your message and brand out to a targeted audience, generate more sales opportunities, and increase the event's ROI. History has shown that companies that utilise MPOs generate more booth traffic, more sales leads, and an overall higher level of satisfaction than companies that do not take advantage of these opportunities.

We are offering MPOs the opportunity to sponsor the following events:

- Name Badges and Lanyards
- Recharge Kiosk
- Water Stations
- Lunch/Cocktail Sponsor
- Coffee Break Sponsor
- Notepad Sponsor
- Pen Sponsor
- Conference Book Advertising (Back Cover, Inside Covers, Pages)

Are you interested in partnering and sponsoring

AMET 2027

We are also able to offer you a customised sponsorship package to promote the benefits of your products and services in a unique way. If you'd like to discuss these opportunities, please contact the conference producer.

SPONSORSHIP OPPORTUNITIES
